The Gran Paradiso National Park, the first nature park in Italy and Europe, borders a high massif with deep valleys. Created in 1922 on the initiative of King Victor Emmanuel II to protect the ibex, it is still a reference for nature conservation: chamois, ibex, marmots, foxes, bearded vultures...

This is an original tour, taking in some of the most beautiful mountain passes between Valgrisenche and Valsavarenche.

The highlight of this trek is the ascent to the summit of Gran Paradiso, which offers a panoramic view of the entire massif, crossing the mythical 4,000m mark. A journey through alpine pastures and high mountains, to discover one of the jewels of the Italian Alps...

You will love

- Crossing major mountain passes and pastures full of flowers
- Easy wildlife watching, well protected in the heart of the park
- Climbing one of the most accessible 4000m peaks in the Alps
- The hospitality of Italian refuges
- Departure from Chamonix (France) or Pont (Italy)

The journey

LEVEL ****

Elevation: +/-1100 to 1300m approximately per day.

Walking time: 6 to 8 hours per day.

Type of trek: Stony paths that cross passes at altitudes of between 2800m and 3000m on a daily basis. Some pass crossings are steep, as are several aerial or technical paths, mainly at the start of the season with the crossing of residual snow. The paths are relatively well marked, except on the approach to certain passes.

Snow and névés will be present on the paths until end of June at least. You may walk on long snowy sections that can make the tour a bit more challenging. High mountain boots, gaiters and walking poles are mandatory. Be prepared!

Climbing to the Gran Paradiso summit involves walking with crampons without any major technical difficulty, however it is a long glacial walk. The last 100m to the summit are steep and more technical and may induce vertigo in those sensitive to heights. It is always possible to not carry out this stage.

You need to be in a good overall physical condition. Regularly practise an endurance sport such as walking, running, swimming or cycling, 3 to 4 hours a week. Your fitness training will make your walk easier and make it all the more enjoyable. Click here for a description of the different levels: [levels of difficulty](#)

GUIDING

Number in a group between 6 and 12 people supervised by a qualified professional mountain leader and high mountain guide. The mountain guide leader may have to modify the programme to adapt it to the level of the participants and/or the natural conditions. As a last resort, he is the sole decision-maker.

As a thank you, it is usual to tip your guide at the end of the trek, depending on your satisfaction. It is not mandatory but, it is very much appreciated.

ACCOMMODATION

5 nights in dormitories in mountain refuges and gîtes and 1 night in a cosy hotel bedroom for 2-4 people. All accommodation is equipped with hot showers. However, due to increasingly recurrent periods of drought, access to showers is not guaranteed.

MEALS

Breakfast and dinner are provided in each accommodation. Picnics are included and are carefully prepared daily by your mountain leader, comprising a variety of healthy salads and local products. Please inform us about your food allergies and special diets **at the time of booking**. We do our best to accommodate special diets (gluten-free, vegetarian, etc.). However, we encourage you to bring some additional products for your own picnics.
